Rave Guardian is Here

The new Rave Guardian app to help improve *safety*, security and access to emergency numbers is now available *and free* for all within the Maricopa Community Colleges to use.

The Rave Guardian app may be downloaded from the Apple App Store or Google Play. Once you download it to your mobile device, authenticate your account with your student email address, create a user name, password and personal profile. You will be able to start using it immediately after account set up.

Once open, Rave Guardian will display a simple interface with six icons:

- Inbox — Manage messages to the District-wide Public Safety communications center
- Guardians — Create a network of guardians looking over you, including family, friends, and others you trust
- Safety Timer — Allows Guardians to access your status and location so they can alert Public Safety if you fail to check in at a designated time
- Send a Tip — See something, say something. *If selected*, anonymously send messages and photos to Public Safety
- Call Campus Police — Make a one-touch voice call to Campus Public Safety Call 9-1-1 — *Make a one-touch voice call to other local emergency services.*

For more information or if you have questions, call CGCC public safety at 480-732-7280.
